CANALINA SAGOMATA DI CONTENIMENTO

- I** Inserire la guarnizione di tenuta inferiore con la pennetta "corta". Attenzione lo spoiler deve essere rivolto verso l'interno doccia.
- GB** Insert the lower watertight gasket with the shortest part (so the straight one has to be turned towards the external).
- D** Die untere Dichtung einsetzen Achtung hierbei Achten, dass die kurze "Feder" intern bleibt und die gerade Seite extern steht.
- F** Insérer le joint d'étanchéité inférieur avec la coté la plus courte (la partie droite doit être retourné vers l'extérieur).
- E** Introducir la junta de sellado inferior con la guarnición de drenaje "corta". Prestar atención al spoiler que deberá orientarse hacia el interno de la ducha.

- I** Tagliare a misura la canalina di contenimento, siliconarla appoggiarla sul bordo piatto con i relativi accessori.
- GB** Cut the channel for water retaining at the right measure, put silicone on it and rest it on the shower edge with its accessories.
- D** Die Wasserschutzrinne nach Maas kuerzen, mit Silicon unten abdichten und auf den Duschrand positionieren mit entsprechendem Zubehoer.
- F** Couper à mesure le caniveau de compression, appliquer le silicone et le poser sur le bord du receveur de douche avec ses accessoires.
- E** Cortar a medida el canal de contención, aplicar silicona y apoyarlo en el borde del plato con los respectivos accesorios.
